

# Profile **ALJDWA**

The leading Saudi company in preparing economic feasibility studies and developing business sector ecosystems

# ALJDWA .. This is How Projects Succeed

Several years ago, Saudi Vision 2030 emerged to draw a roadmap toward a promising future. Since then, ALJDWA has been committed to being an active partner in achieving the ambitious objectives of this vision for our nation, by addressing the needs of promising economic sectors. We have built an integrated economic ecosystem that actively contributes to achieving the targets of Saudi Vision 2030 by providing advisory services and innovative digital solutions tailored to the needs and aspirations of the public, private, and non-profit sectors.

At ALJDWA, we are committed to working side-by-side with our clients, dedicated to addressing all their requirements and collaborating with them as one unified team to achieve growth and success. We firmly believe that complete satisfaction is achieved by providing accurate and specialized feasibility studies that lay a solid foundation for projects on the path to success, progress, and sustainable development. To this end, we have established strategic partnerships and agreements with leading professional firms, both locally and internationally, to ensure the delivery of consulting services and digital products tailored to our clients' needs.

At ALJDWA, we are proud to have earned the trust of numerous government entities, Vision 2030 programs, and various organizations across the public, private, and non-profit sectors. This trust is deeply rooted—thanks first to Allah, and then to the dedicated efforts of our team, whose work consistently embodies precision, objectivity, and integrity in everything we deliver.

We constantly strive to deliver realistic feasibility studies that support informed investment decisions and enable effective evaluation among available opportunities, ensuring maximum success and growth. Our goal is to transform dreams into tangible realities, empowering today's youth to become tomorrow's leaders of promising ventures and contributing to achieving the aspirations of our beloved nation, placing it at the forefront of the world's leading countries. ALJDWA, your partner towards a prosperous future.

## About ALJDWA

ALJDWA is a national limited liability company headquartered in Riyadh. Since our inception in this dynamic field, we successfully provided distinguished services to the business sector, achieving remarkable milestones with the private sector within a short period. Due to our commitment to quality and professionalism, we expanded our operations to the governmental sector, gaining the trust of numerous governmental entities, including ministries, authorities, and governmental funds. We also proudly provide services to the non-profit sector, as part of our continuous efforts to support development and achieve positive impacts. We will continue our journey providing integrated services that support business growth, development, and contribute to strengthening the national economy.

## We Work To:

Establish strong partnerships with our clients, where our ultimate goal is to become true partners in their success and business growth. From this standpoint, we leverage our consulting team's accumulated expertise from years of extensive experience in the Saudi market, built upon diverse academic and practical backgrounds

## We Offer:

Consulting services and integrated digital products, including economic and administrative consultations, supported by strategic partnerships and agreements with leading professional firms at local, regional, and global levels, ensuring the provision of digital solutions and services that effectively and efficiently fulfill our clients' needs.

## Our Company Aims:

To fulfill the needs of all promising and economic sectors, and to be an effective instrument in achieving the targets of Saudi Vision 2030, through providing innovative advisory services and distinguished digital products to the governmental, private, and non-profit sectors.

## We are capable of:

Providing innovative solutions and pioneering projects designed to enhance their chances of success, in alignment with their needs and capabilities.

## We Exert:

Our utmost efforts to meet client requirements, working collaboratively in a team spirit to achieve the growth and success they aspire to, delivering outcomes that guarantee their full satisfaction with our services.

## Our Vision:

To become the leading Saudi company in the field of advisory and economic studies, and in developing the business entrepreneurship ecosystem locally and regionally.

## Our Mission:

Providing advisory services aligned with global best practices, and empowering entrepreneurs with digital products to ensure the success and sustainability of their projects.

## Our Mission:

Social Responsibility

Team Spirit

Efficiency and  
Specialization

Credibility and  
Transparency

Effective Partnership

Quality and  
Excellence

Innovation and  
Creativity

## Our Goals:

Preparing high-quality economic feasibility studies, based on in-depth analysis and accurate data, to support clients in making sound investment decisions.

Developing innovative, integrated digital solutions that contribute to sustainable growth and deliver added value for clients across various economic sectors.

Building strategic partnerships with governmental and private entities, enhancing efficiency and achieving shared goals aligned with Saudi Vision 2030.

Strengthening trust and credibility by adhering to the highest standards of professionalism and objectivity in delivering consulting services.

Utilizing top talents and expertise to achieve excellence and innovation in preparing economic studies and consultations.

## Our Team:

ALJDWA comprises an elite national group of experts and consultants with the ambition and determination to transform economic challenges into practical and applicable solutions, utilizing our distinguished scientific and practical expertise. We deliver valuable, tangible consultations and studies across various sectors such as tourism and entertainment, industry and mining, education and training, health and care, technology projects, warehousing and supply chains, food and beverages—ensuring high quality with professionalism, speed of delivery, and precision of outputs for the public, private, and third sectors, as well as investors and entrepreneurs.

# Our Consulting Services

## → Economic Feasibility Studies

We provide our clients with comprehensive feasibility studies aligned with local and international standards. These studies cover legal, market, technical, and financial aspects of projects, accompanied by accurate, analytically-supported recommendations. They are prepared by elite national experts and approved by financing authorities within the Kingdom to ensure sound investment decisions.

## → Economic Reports

We provide accurate economic reports based on in-depth analyses of financial markets and economic trends. These reports support investors and decision-makers in implementing strategic, well-planned steps to keep pace with future changes and leverage available opportunities.

## → Investment Portfolios

We facilitate the selection process of ideal investment opportunities for our clients by conducting comprehensive analyses of returns, risks, and costs, enabling smart investment decisions that fulfill future financial aspirations.

# Digital Products

1

## Jadwa Tech

An advanced technological system that enables entrepreneurs to independently and easily prepare comprehensive feasibility studies for their projects. Each study aligns with essential economic standards, includes complimentary consulting support, and provides up to 6 months of access, ensuring an integrated experience.

3

## Partner Tech

An innovative digital service assisting entrepreneurs in finding the ideal partner to grow their businesses and achieve financial sustainability. This service connects projects with a database of qualified candidates across various fields, ensuring mutual growth and success.

2

## Model Tech

An innovative digital service that empowers entrepreneurs to design a comprehensive business model for their project ideas. A business model is the first and fundamental step toward ensuring project success, as it helps you understand the key elements required for your idea's success and guides you in the right direction.

4

## Consulting Tech

A digital platform designed to streamline entrepreneurs' journeys by connecting them with leading consultants across various promising fields and sectors. This service provides specialized remote consultations, making access to professional support quick and easy, anytime.

## Our Digital Products

### 5 : Digital Entrepreneurship Journeys

An integrated virtual platform designed to empower entrepreneurs across various sectors to develop their ideas and transform them into successful real-world projects. The platform provides an all-in-one experience enabling entrepreneurs to seamlessly complete every step—from acceptance to preparing the business model, conducting economic feasibility studies, and receiving direct advisory follow-up. It also facilitates communication with experts, provides market analysis tools, simplifies legal and financial procedures, and assists in finding foundational team members as co-founders, ensuring project success and sustainability.

## Objectives of Digital Entrepreneurship Journeys

Contribute to providing attractive entrepreneurial opportunities for investment

Regular follow-up and Evaluation for entrepreneurs enrolled in the journey

Providing the services required by entrepreneurs

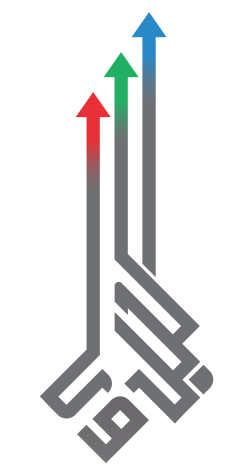

Creating an integrated innovative digital environment

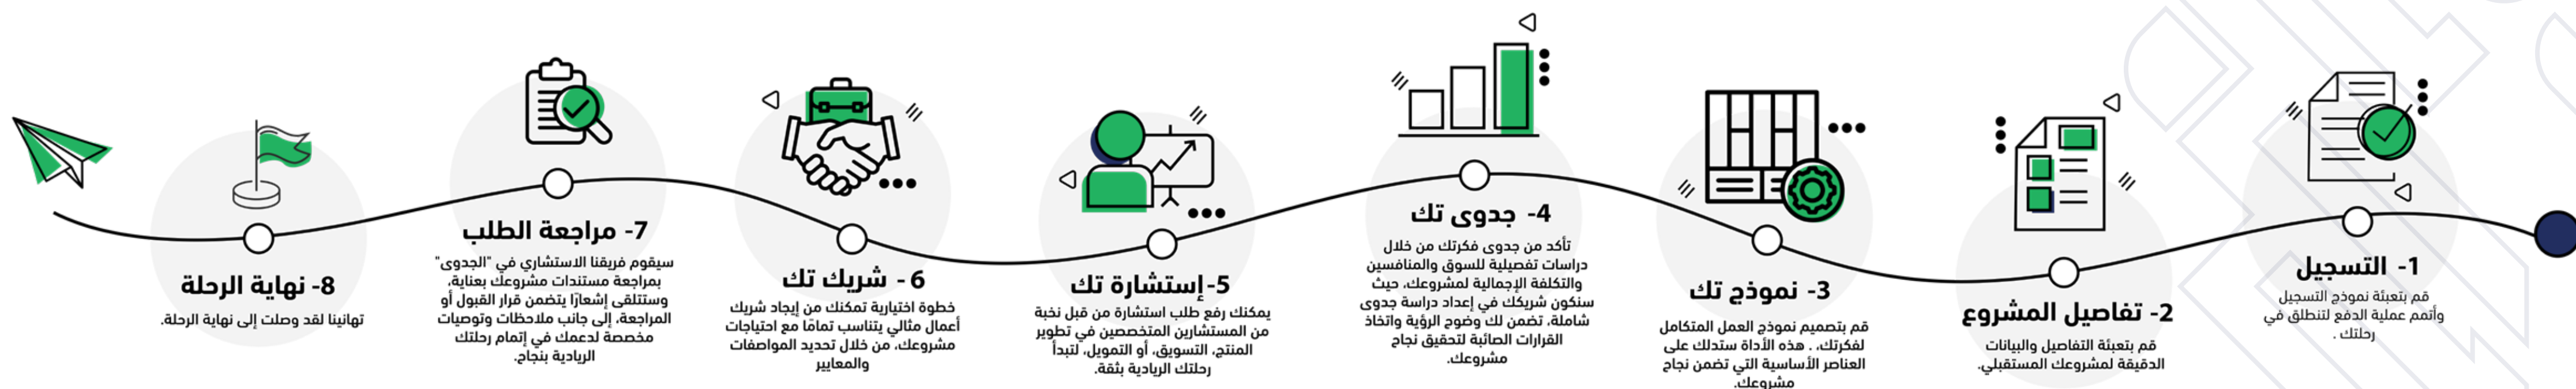

Assisting entrepreneurs
